

MIGRATION PLANNING JUST GOT A LOT SMARTER

Accelerate your cloud migration with
lightweight discovery and AI-driven planning.

SEAMLESS SETUP

Deploy in under
an hour.
No agents or
infrastructure
needed

AI ASSISTED PLANNING

AI-driven
workflows
eliminate manual
overhead

ACTIONABLE INSIGHTS

Identify cost
savings, risks, and
optimisation
opportunities.

ON DEMAND REPORTS

One-click reports
aligned to your
plan — perfect for
execs and
stakeholders.

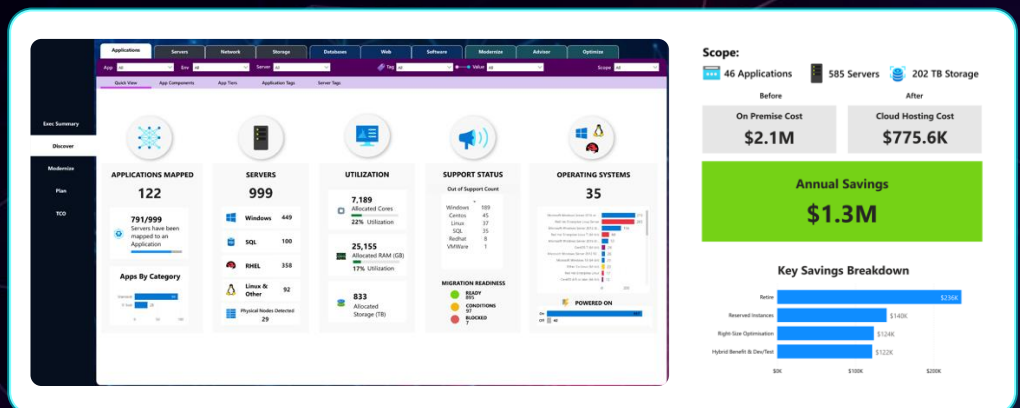

DR MIGRATE PLATFORM

From Data Collection to Migration Planning — in Days.

COLLECTION

Secure
Lightweight
Data Collection

INSIGHTS & PLANNING

Dr Migrate turns infrastructure data into clear recommendations
— optimising cost, performance, and migration plans.

SECURE DISCOVERY INTELLIGENT PLANNING

Together, DMC and Dr Migrate provide an end-to-end experience — from secure discovery to executive-ready migration roadmaps — all without requiring intrusive agents or compromising customer data security.

From Discovery to Decision Making

DMC

Light Weight Collection >

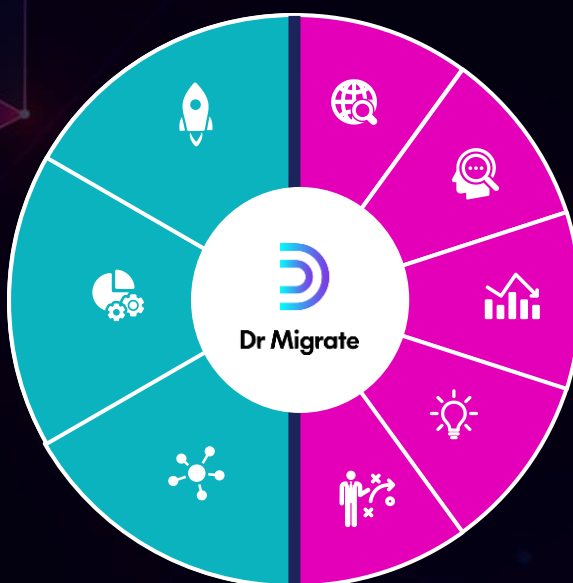

No infrastructure or agents required.
Complete collection in hours.
Customer admin can run from Jumpbox.

Secure >

No external comms required.
Read-only access via vCenter API.
In memory credentials only.
No PII data collected

Discovery >

Support VMware 5.5 above.
Support Windows and Linux.

DRM Platform

< **+100 Interactive Dashboards**
Dynamic insights and visualizations

< **AI Assisted**
Simplifies complex planning decisions.

< **Total Cost of Ownership**
Compare current vs cloud cost.

< **Application Analysis**
Deep dive your application estate

< **Wave Planning**
Automated, risk-based migration grouping.

Next Steps

Schedule a quick call with our team
— we'll guide you through setup and
run DMC to collect environment
insights.

Within 48 hours, we can provide an
interactive walkthrough of your
environment powered by Dr Migrate's
AI-driven platform.
